

# Comfort Menu

We want you to have the most comfortable and relaxing dental appointment possible. That's why we have created the Comfort Menu. You'll be surprised how quickly the time passes when you are enjoying a short story, catching up on the latest news, or just jamming to your favorite music. Please indicate how we can make this appointment comfortable for you by selecting from the options below. Just hand this card to the assistant when you are seated, and we'll do the rest.
